

TEAM ID	PNT2022TMID27573
PROJECT NAME	Personal Assistance for senior citizens who are self-reliant
DATE OF THE MEETING	22-10-2022

MINUTES OF THE MEETING : SPRINT-1

- To create a form in node-red to deploy the module
- In IBM, an user account is created to work with cloud services
- Python packages are installed to code the module
- Planned to create and configure the IBM cloud service in node-red platform
- At last, the project objectives are defined in which the work of whole project is stated

The screenshot displays a Zoom meeting window. On the left, a web application titled "Add Medicine" is running in a browser. The application has a pink header bar with the title "Add Medicine". Below the header, there is a form titled "Medicine Reminder". The form contains the following fields:

- MedicineName ***: A text input field with a placeholder "Please fill out this field".
- Time ***: A time selection dropdown menu.
- Date ***: A date selection dropdown menu with the format "dd-mm-yyyy".

At the bottom of the form, there are two buttons: "SUBMIT" and "CANCEL".

On the right side of the Zoom window, there is a list of participants:

- MARIA ANISHA G 19IT059**: The first participant, with a blue border around their profile card.
- Jane Ruffina**: The second participant.
- PREETHI R 19IT016**: The third participant.
- You**: The user's own profile card, with a pink circle containing the letter "V".

At the bottom of the Zoom window, there is a toolbar with icons for mute, video, chat, hand raise, screen share, and a red phone icon for ending the call. The time "9:45 PM" and the meeting ID "mqr-guec-mqi" are displayed in the bottom left corner.
